There were 2 extensions, one in 2009 and 2010. Since that time the price has increased and Denny Miller, Road Foreman, suggested additional work that is needed: an additional guardrail, additional paving repair, milling the road and widening the road from 11 feet wide to 13 feet wide. They are going to change the profile of the road by raising the road approximately 2 feet. The Ohio Public Works Commission will pay approximately \$257,220.00. The Township has to pay the rest. The total project cost is about \$464,640.00. That includes engineering and advertising.

Work Agreement with Leslie Merrill

Mr. Becker explained the additional work needed on Leslie Merrill's property. He said that the water goes down and makes a sharp 90 degree turn to the north and is hitting the side of the sandstone blocks and then continues down to the east and through the current structure. They would like to clean up the inlet. Mr. Merrill approved and said it was alright to go all the way back to have a straight structure. Mrs. Gardner attended a meeting with Dan Becker, Denny Miller, Jeff Van Loon and Jim Deeter from the Soil and Water Conservation District and they agreed with the plan and said it is being restored back to what might have been the original path.
